Lazar Denčić

Lead QA & Automation Engineer - SDET

5+ years of architecting quality systems and driving reliability for products on top of agentic AI implementations.

Employment History

Lead QA & Automation Engineer - Sealit

2021 — 2026

Project Olin.ai:

- **Owned end-to-end QA lifecycle** for a **Legal AI product** used by **top-tier global law firms**, **leading delivery** across an Agile team.
- Built an **agentic AI system** that **auto-generates tests** and **finds bugs** - adopted team-wide.
- **Led red-teaming** and **LLM quality testing**, validating factual grounding, answer quality, and citations **to minimize output errors**.
- **Architected the test automation framework from scratch** - C#/.NET, Selenium, SpecFlow, Azure CI/CD.
- **Kept production failure-free ~2.5 years** - even as workload **doubled** (engineering **4→8**).
- **Mentored 2 QA Testers** and partnered with **engineering/product team** on product design and UI/UX readiness.

Project Sealit.id:

- **Sole QA for Zero-Trust Cybersecurity SaaS**, resolving over **1,000 defects**.
- **Cross-platform testing** (Web, Desktop, iOS, Android, Google/Microsoft Add-Ins), ensuring secure and consistent user experience and stability.
- **Built test automation in .NET project** - for the **web application**.

IT Support Engineer - NCR

2019 — 2021

- **B2B Clients - Walmart & Boots UK** - Grew: **L1 → L2 → L3 Engineer → Incident Manager**.

Earlier

2015 — 2019

Front-End Web Dev, Graphics & Video (Freelance / Happy TV)

Skills & Tools

QA Strategy: E2E, BDD, Regression, Red-Teaming, Risk-based testing, Exploratory

Tech-stack: C#, .NET, Selenium, SpecFlow, NUnit, JavaScript

AI Agentic Testing: Python, Playwright, MCP integration, LLM integration, agentic test automation, LLM security (adversarial prompt injection, system-prompt hardening)

Performance - API - Database: JMeter, Postman, MySQL, SQLite, Docker

Tools & Process: Jira, Azure Test Plans, Git (PR-based workflows)

Platforms: Web Apps, Desktop (Windows/macOS/Linux), iOS, Android

Education

ISTQB Foundation & AI Testing *in-progress*

Bootcamp: Software Testing

ITAcademy - Java Developer
